

Plas Fix Kit 407057

The Plas-fix Kit Contains two-part urethane resin products for the repair of splits to bumpers and plastic components.
 Plas-fix can also be used for the repair of headlamp brackets, fixing lugs, interior and exterior trims, and around the home on broken plastics.
 Repairs will be durable, and when fully cured, the product can be over textured and painted to match original finish.

Items included in the kit

- PLAS-FIX rigid x2
- PLAS-FIX flexible x2
- PLAS-FIX mixer tipsx12
- PLAS-FIX applicator gun
- Contouring film
- Re-enforcement mesh
- P U adhesion promoter
